

Industrial Engineering Services

“Serving Industry in Southwest Virginia Since 1994”

MTC Services

The MTC offers a wide range of Industrial Engineering Services. We can assist with:

- Plant Layout
- Capacity Studies
- Time studies / Rate setting
- Creating Manufacturing Instructions / Specifications
- Workflow design and documentation
- Burden Rate studies
- CAD/CAM software/Hardware Selection and implementation
- 3D CAD

For more information on these or other services offered by the MTC contact Linda Newman at (276) 223-4709, lnewman@wcc.vccs.edu, or visit our website at <http://www.mtcofswva.org>.

MTC Services

Continuous Improvement

- Lean Six Sigma Simulation Workshops
- Value Stream Mapping
- Kaizen Blitzes

Growth and Innovation

- Idea Generation and Lean Product Development

Industrial Engineering Services

- Plant Layout
- Time and Motion Studies

Quality Management Systems

- Audits and auditor training for ISO and TS Quality Systems

Environmental and Energy

- E3 assessments
- On Site Environmental Assistance

Health and Safety

- OSHA General Industry Safety Training
- Walkthrough
- Inspections
- Consulting
- Recordkeeping
- Learning Modules
- Safety Topic Preparation
- Research
- Forklift Certification
